COMMENT DESCRIPTION:

On February 20, 2010 there was a notice in the media that Ohio Edison is still attempting to force two CFL bulbs on us, plus an attempt to force us to pay plenty for them, now, and in the future. We have already replaced all of the bulbs we want in our home, at our own cost, in order to save money on our electric bill. We continue to reduce our use of electricity in other ways in order to save money on our electric bill. Ohio Edison still increased our bill last month by 10%, even though we have reduced our use of electricity, maybe they have already incooperated a price increase to pay for their unwanted bulbs. We told Ohio Edison, PUC, and the Ohio Consumer's Counsel last year that we would stick the bulbs up the butt of any Ohio Edison employee who tried to deliver them. Ohio Edison requested that we give them to someone else, but they will certainly still charge us for them for many YEARS in the future. Please deny their request for any charges for this ridiculous program. Thank you.
