Docketing Case No.: 10-0176-EL-ATA

Notes: What's going on with the electricity rates for all electric houses? We need a short and long term solution to keep electric rates low for us as in your charter it says to keep the utility rates 'fair'. I see that as meaning I don't pay an extra \$300 a month for electric that covers my heating while down the road and a few streets over my neighbor pays \$300 less because they have gas and also have a larger house.

Please docket the attached in the case number above.
