Docketing Case No.: 10-0176-EL-ATA

Notes: Ten years ago we built our dream home and installed a complex open loop geothermal heating and cooling system only because of the promise of an all electric discount from the Illuminating Company. With the sudden repeal of this discount our energy costs have skyrocketed and at the same time our income has decreased due to the terrible condition of the economy. We feel that the Illuminating Company is guilty of deceptive practices by inducing us and so many others to invest in all electric products with false promises of future savings
