Docketing Case No.: 10-0176-EL-ATA

Notes: My electric bill has doubled since the discount has been removed. When will this be rectified? I would prefer to keep my home all electric however, at these rates it will pay for itself in just a few year to convert to gas. When will the consumers be informed of a final decision. How on earth will consumers with all electric homes be able to run air-conditioning? Please help.

Please docket the attached in the case number above.
