Docketing Case No.: 10-0176-EL-ATA

Notes: Every month when I open my electric bill, I get disgusted. This has been going on since PUCO allowed First Energy to "moderate" increase in July (274%). I was under the impression that PUCO's job was to prevent price gouging and monopolistic practices by utilities. Apparently this is not the case. Allowing an increase of such magnitude all while this area is plagued with unemployment, falling incomes and overall economic failure. Since July, delivery charges have been around 10% more than the actual cost of my electricity. How is this fair? Please have someone respond...I can't wait to hear the justification. Thanks,
Mike Conley
