PUCO

Docketing Case No.: 10-0176-EL-ATA

Notes: We received the increase in rate from The First Energy Company as many other all electric home owners. We bought our home with this as a main resale value, as well as the living savings and concervation. Resale has been taken away and now higher rates!!! We do not feel PUCO was fair to raise these rates without feedback from "All of us ALL ELECTRIC HOME OWNERS". In this time of economics how can the government add more stress to the people who pay the bills? Is the government ready for more foreclosures? Can we get a bail out on the cost of buying a gas furnace, the fee to hookup to the gas main and running a gas line to the house? If these prices remain as is how does the future looke for passing of levies? We are living on a limited income as well as having health issues. Financial stress will not help in my wifes health for the year(s) she has remaining. Please help to reduce this for us as we support growth in the economy on a daily basis.

Our sincere thanks is greatly appreciated.

Please docket the attached in the case number above.
