1101 Orchard Heights Dr
Mayfield Heights, OH 44124

Docketing Case No.: 10-0176-EL-ATA

Notes: What's going on? How can the electric company justify increasing rates by 106%...especially in this economy? higher gas prices...higher groceries? higher taxes? higher health care. When does it stop? Our electric bill more than doubled from just last months charges and is the highest we've ever had to pay? we don't have an all electric house it's a lot higher than our heating bill?... Our budget can't sustain rates like this and at this rate we won't be able to retire. We're over 60 and had planned to retire in two years when we both if we do we'll need a part time job just pay our electric bill or work until we die.

Please docket the attached in the case number above.
