Docketing Case No.: 10-0176-EL-ATA

Notes: Something must be done with the control the Illuminating compnay has over it's customers. My elcetric bill has increased over 110% in the last year with no additional electricity being used. When I call to question I am told there is no control over price increases. With the economy in such dire strait especially in NE Ohio you would think these companies that have a monopoly would be a little more careful about raising rates to an absurd amount. I truly cannot pay some bills because of the illuminating company. Please do something

Please docket the attached in the case number above.
