Re: Case #10-176-EL-ATA

INVESTIGATION
PUBLIC UTILITIES COMMISSION

Dear Commissioners:

I have heated with natural gas all my life up until 1973 when we had our new home built. Gas was not an option. Electric, Propane and I think oil was the choices. CEI told me that I would have the All Electric Rate as long as we lived in it, they told us it was grandfathered in. A few years later Gas became available. But because of their guarantee I never considered it. I was still working and if I was not getting the All Electric Rate and their Guarantee I would have changed. Now I am retired and on fixed income. I have a fair suggestion.

If First Energy would pay to have my All Electric home changed over to gas then I would be OK with them taking away my All Electric Rate. Other than that Give it back and credit us for the extra they charged us. Changing over includes a Furnace, Dixer, Hot Water Heater & stove. I also put more insulation in to qualify for the discount.

Sincerely,

Maynard Bassett
