Notes: I am complaining and protesting the dramatic and huge increase in my electric bill. This is outrageous and unacceptable. PUCO's decision makers are responsible for allowing this to happen. You have devalued my home and have created a severe hardship to my budget. I am against First Energy's case 10-0176-EL-ATA filed Feb 12, 2010. I am also against phasing in rest of increases over 8 years because of what it will do to my budget and home value. This is unacceptable and I consider this financial terrorism. This needs to go back to the "permanent" discount that First Energy negotiated and pursued with all electric homes. This was a permanent contract that must be enforced and PucO needs to use common sense. This is a legal and binding contract. I will fight for my rights and seek damages on an unlawful broken contract. I am also against raising the costs to other homeowners and small business's to compensate for FE "loss". They were able to buy Allegheny Power and made 1 billion dollars in profit. Enough of this lack of common sense and nonsense.
