Dear Commissioners:

I Truly believe First Energy is taking advantage of "all electric" homes. I purchased my home with the idea that I would be receiving the "all electric" on my home thru the years. I know that at any time the Electric Company would lift this discount this would have made a "huge" decision in purchasing the home. The financial hardships of this price increase are way to much to absorb. My present furnace is working fine and definitely cannot convert over to gas due to the cost. This is a crime. First Energy are robbing the people while the CEO's get rich. I truly feel we must take a stand on this matter, as I have been a loyal customer of "all electric" for 20 years.

Sincerely,

Deborah Miller
