Docketing Case No.: 10-0176-EL-ATA

Notes: I writing to you today, I am outraged, with the charges on my light bill, I have called Ohio Edison 2 months in a row about the charges on my bill. And what I was told that one charge was the actual amount of the electricity that I used and the other was a charge for carrying the electricity from the lines to my house. I also was told that they were able to start charging this way in Jun 09. This is so not right here we are getting screwed one more time by the light company. the kilowatt rate changing monthly basis to the amount that they want to charge us and also caluculating the other charge the same way. These amounts are outrages amounts that should not be charged just because they supposedly can. I am not the only one complaining about this issue I heard on the news that people are outrages by the charges for electricity. This is just one more way to screw the poor people in the United States. I hope that you realize this and can see the way that we the consumers are being gouge please help us. and control the way the light companies are being able to bill the consumer. Thank you for your time Cheryl Hyde
