Docketing Case No.: 10-0176-EL-ATA

Notes: We thought the puco and governor strickland were suppose to keep the people from such unreal increases first out time of day was taken away, than our load control was taken away, than an increase in our electric bills, in the coldest months we have been paying around 260.00 now our bill is 808.00 and now we turned our heat down to 62 and we wear coats, hats, gloves and scarfs around inside our home. the electric bill is twice the cost of our property taxes and when do utillies bills end up being as much as a house payment. How are we suppose to live, do we freeze to death, get sick, not eat, just to pay electric something needs to be done and you need to help all of us. you are suppose to be our voice. sincerely, tracy sanek
