Docketing Case No.: 10-0176-EL-ATA

Notes: In comparing my current electric bill dated 1/19/10 to my electric bill of one year ago dated 1/21/09 I see that the Distribution Related Component (on a per Kilowatt Hours Used) over the past year's time has increased by 127% which seems more than normal. Would you please check if this increase is correct? If you please send me an email address I can forward the email reply (along with my original complaint) I received from the electric company. Thanks for your time.
John J Sharkey
