Docketing Case No.: 10-0176-EL-ATA

Notes: We, too, join many other customers, in trying to understand how The Illuminating Company can monopolize the utility arena. The Company is obviously taking advantage of its customers, who NEED electricity yet have virtually no recourse but to pay ridiculous increases. Where are you -- PUCO -- to monitor and correct the utility companies? This type of inequity parallels the historical cries of the Revolutionary War era : "Taxation without representation!" The difference being, there is the taxation (exorbitant rate increases) but the PUCO is allowing it. Aren't you, PUCO, supposed to be the consumer's representative, looking out for propriety in the utilities? We are continuously being cornered into paying increases that are WAY out of line --- UNFAIR !!
