Mogadore, OH 44260

Docketing Case No.: 10-0176-EL-ATA

Notes: I am so upset with the increase to my electric bill over the past 6 months. I have done everything I can to keep my bill down. I've replaced all my light bulbs. We unplug all items in the home that constantly drain except 2 tv's. I am so sick of hearing about all the green crap when I've done what I can and my bill still is 50%+ higher. How are we suppose to keep paying these bills? There has to be a limit. As it stands now I'll not be able to afford to run my central air this summer while all you people setting the policy will be sitting pretty in your air conditioned homes. There has to be an end to this and some regulation on the utility companies. No wonder FirstEnergy can afford to buy up another company. They are ripping all their current customers off to do it!

Please docket the attached in the case number above.
