Notes:

please keep this in mind, PUCO made a gigantic error in allowing this rate increase to happen in the first place. even though you are taking steps to correct it make sure that you remember that these rates must be lowered forever not just phased in, otherwise you make all electric homes unsellable.

since you didn't do your jobs the first time around make sure you get it right the second time around

Please docket this under 10-0176-EL-ATA
