Re: Case #10-176-EL-ATA

Dear Commissioners:

One can imagine is there a end of greed of corporate of America. Rich is getting richer and poor is getting poorer. Big corporations and their officers are making lot of profits and bonuses at the expense of average citizens. They thought the average peoples memories are short and if they can put a gun on the consumer and can get a way. As the Plain Dealer article written last week that the Illuminating Company had agreed in 1988 that rates of All electric homes will not raise in future guaranteed.

As the generations are getting older and these companies are making hole for them. My electric bills since last year soared 80%, and making a choice between heating the house and save the plumbing from freezing or having food for survival and medicines for health. Dear Commissioners we appreciate if there is a little bit heart for the average citizens.

Sincerely,

Chander Kachoria
