Docketing Case No.: 10-0176-EL-ATA

Notes: Please forward this to whoever is to be making a decision on trying to due away with the all electric rate homes with Ohio Edison. My home was built new by me in 1999. I was approached by Ohio Edison, Columbia gas, a fuel oil co, and a propane co who were trying to get my buisness. I chose Ohio Edison and in turn had to buy a special hot water heater from them and have my house insulated to a high degree to qualify for a special rate, which I did. Without that rate my last bills have been \$400 & \$500 a month. I cannot afford that. I did what was asked of me and they should leave my special rate alone. Had I known this could happen I may have chosen differantly. Now all my homes appliances and heating devices are electric so now I am stuck. To have a home epuipped with only one utility and to have the rate changed is not right and places us in a financial hardship that we cant handle. I request that my all electric rate stay as it was when I applied for it, thanks

Please docket the attached in the case number above.
