Docketing Case No.: 10-0176-EL-ATA

Notes: What are you people thinking? You seem approve whatever FirstEnergy presents to you without thinking about the consequences. Your original approval to change the declining to the inclining electric rate structure punishes everyone in Ohio and simply generates more profits for FirstEnergy. It is totally unfair to anyone who heats their home with electricity.

I am opposed to First Energy's case 10-0176-EL-ATA and demand the PUCO NOT to approve it! First Energy needs to honor its 30 year promise to offer discounted all-electric rates to all-electric home owners, and if they need to find a funding source for this, I suggest taking it from their 2009 one billion dollars in profits or the 13 million dollar salary of its president! I am also adamantly opposed to First Energy's case 090906-EL-SSO and understand the OCC also opposes this issue! You must not eliminate the "Residential Distribution Credit" but rather fully reinstate our original all-electric rate structure and fulfill your 30 year long promise!

Please docket the attached in the case number above.
