Docketing Case No.:

Notes:

This is in direct reference to PUCO Case No. 10-0388.... I absolutely oppose First Energy's want of an increase in what they want to charge customer's homes, schools, and businesses!!!! This is more than a slap in the face. This is extreme hardship for all. It is not practical. This will devastate especially those with all electric homes. The public really needs to hear the full story. The bottom line is that people will not pay the new price increase cost because it is beyond the means of most people to do so. Please consider the practical effects on customers of such an alarming increase! This increase is just wrong!
