Docketing Case No.:10-0388

Notes:

I understand that Case # 10-0388 is still before you. This is my comment on it. First Energy charges it's customers some of the highest cost for electricity than any other utility charges in the country. Now they want to raise distribution rates without even coming before PUCO every three months. This is not fair to the people or business that have so far remained in this part of the country. We live in a depressed area and this will make it even harder to live here. I understand making a fair profit, but they were just given a rate increase and now they want another. Many people who live in this area have not had pay increases in the past 4 or 5 years, but the cost of our utilities keeps going up. Please tell First Energy that they need to prove that they need to prove beyond a shadow of a doubt that their costs have gone up before you approve a rate increase. God Bless --- Edward J. Takacs
