Docketing Case No.: 10-0176-EL-ATA

Notes: Our electric bill has doubled because Ohio Edison no longer is giving us the discount they agreed to give to all-electric homes in the 1970's. The company didn't even notify us that they were changing the agreement. We want to express our disapproval of the way Ohio Edison is conducting their business. What will they do with the distribution rate when our solar energy is installed? We are beginning to feel trapped by the policies of Ohio Edison (FirstEnergy). PUCO is the public's agency to keep the utility companies honest. Please do what your mission is supposed to do.

Please docket the attached in the case number above.
