COMMENT DESCRIPTION:

Docket Case # 10-0176 --

I purchased my all-electric home in 1980 with the understanding from CEI that an all-electric rate schedule would be permanently available. This rate schedule was offered on the basis of us having no natural gas service on our street, and therefore all of our energy-consuming appliances (heating, cooling, water heating, cooking, etc.) would be powered by electricity thus producing a nice steady (and large) base load for the electric company.

This is to certify that the images appearing are an accurate and complete reproduction of a case file document delivered in the regular course of business.

RECEIVED-DOCKETING DIV
2010 APR 14 PM 4:14
PUCO

Now, most likely due to mergers and management changes, the promises originally made by CEI management are no longer being honored by the current managers of the electric utility company.

If the PUCO allows this breach of promise to stand it will seriously affect the cost to live in my home and the resale value of the home when the time comes to sell it.

I ask that you restore the original all-electric rate schedule to myself and all future owners of my home, and that you require *FirstEnergy* to refund all charges collected by the recent billings using the non-all-electric rate schedule.

Please docket this comment in the case number shown above.
