COMMENT DESCRIPTION:

I am apalled at the fact that you are considering reduction of rates to large customers such as the Cleveland Clinic. What's even more appallinis the fact that you think that these reductions can be overcome by increasing rates to other classifications of users, especially small businesses. This is ludicrous. Small business is struggling to stay alive during these desparate times. every cost increase is met with resistance. What you are considering is nothing more than taxation of one group to offset these reductions to others. I did not elect your board to make decisions regarding taxes. This represents nothing more than taxation without representation.
