SECTION 3 - DESCRIPTION OF SERVICES (CONT'D)

3.7 Blocking Features

A calling party may block their telephone number, associated main listed name and voiceback of calling identification information to users or subscribers to customer calling features utilizing SS7 technology. Blocking will also prevent call completion through the use of Return Call service.

Customers have two blocking options:

Per-Call Blocking: By activating a special code, the caller may block the transfer of the telephone number for that call only. There is no charge for using per-call blocking and it is provided on an unlimited basis.

Line Blocking: This service must be added to a customer's line by contacting the Company's business office and having a service order issued. All calls are automatically blocked when a customer subscribes to line blocking unless the blocking feature is deactivated.

If a customer subscribes to line blocking, he/she can deactivate blocking by dialing a special code prior to placing a call. Blocking will be deactivated for that outgoing call only.

As facilities permit, a line blocking customer will be provided with a separate code to deactivate blocking, which is different from the per-call blocking code. Where this separate code is not available, the code for per-call blocking and the code to deactivate line blocking will be the same.

Line blocking is available to all customers in Broadview Networks, Inc.'s serving territory. Line blocking is provided without charge, except as discussed in the rate section of this Tariff.

For each Customer of Company-provided Exchange Service(s), the Company shall arrange for the listing of the Customer's main billing telephone number in the directory(ies) published by the dominant Local Exchange Carrier in the area at no additional charge. Directory listings are provided in connection with each Customer service as specified herein.

The Company reserves the right to limit the length of any listing in the directory by the use of abbreviations when, in its judgment, the clearness of the listing or the identification of the Customer is not impaired thereby. When more than one line is required to properly list the Customer, no additional charge is made.

The Company may refuse a listing which is known not to constitute a legally authorized or adopted name, contains obscenities in the name, or any listing which, in the opinion of the Company, is likely to mislead or deceive calling persons as to the identity of the listed party, or is a contrived name used for advertising purposes or to secure a preferential position in the directory or is more elaborate than is reasonably necessary to identify the listed party. The Company, upon notification to the Customer, will withdraw any listing which is found to be in violation of its rules with respect thereto.

Each listing must be designated Government, Business, or Residence to be placed in the appropriate section of the directory. In order to aid the user of the directory, and to avoid misleading or deceiving the calling party as to the identity of the listed party, only business listings may be placed in the Business Section and only residential listings in the Residential Section. The Company, upon notification to the Customer, will withdraw any listing which is found to be in violation of its rules with respect thereto.

5.1 IntraLATA Presubscription

5.1.1 General

InterLATA Presubscription is a procedure whereby a subscriber designates to the Company the carrier which the subscriber wishes to be the carrier of choice for intraLATA toll calls. Such calls are automatically directed to the designated carrier, without the need to use carrier access codes or additional dialing to direct the call to the designated carrier. IntraLATA Presubscription will become effective upon the initial offering of certified local exchange service.

IntraLATA Presubscription Options

1. Option A: The Customer may select the Company as the presubscribed carrier for intraLATA toll calls subject to presubscription.
2. Option B: The Customer may select her/his interLATA toll carrier for IntraLATA toll calls subject to presubscription.
3. Option C: The Customer may select a carrier other than the Company or the Customer's interLATA toll carrier as the presubscribed carrier for intraLATA toll calls subject to presubscription.
4. Option D: The Customer may select no presubscribed carrier for intraLATA toll calls subject to presubscription which will require the subscriber to dial a carrier access code to route all intraLATA toll calls to the carrier of choice for each call.

Rules and Regulations

1. The Customer will retain their current dialing arrangements until they request that their dialing arrangements be changed.
2. The Customer of record or new Customers may select either Options A, B, C, or D for intraLATA Presubscription.
