I built a new house at 6146 West Smith Rd. Medina, ohio 44256, and moved into it November 1, 2010. I was fraudulently led to believe by Ohio Edison that if I installed TWO electric meters, the amout used in the second meter for my ALL electric geothermal heating would be supplied at a greatly reduced rate, and deducted from the first meter total house usage. That did happen until January, 2010 I believe. Now the discount and reading of both meters no longer applies, and Ohio Edison perpetrated a bait and switch fraud upon me in leading me to believe one thing, actually delivering as promised, then switching.
