QUESTION DESCRIPTION:

Case# 10-176

This is to certify that the images appearing are an accurate and complete reproduction of a case file document delivered in the regular course of business.  
Technician DR Date Processed 6-15-2010

A permanent solution must be made regarding the All-Electric home issue, and it must be in favor of the home owners. No one would have built or bought an all electric home if they knew First Energy was going to break their promise on a discounted electric rate. No builder would have built all electric homes if they knew. The owners of these homes are stuck. We won't be able to sell our homes, and we won't be able to afford to live in them. This situation needs to be corrected, and First Energy needs to step up and make it right. It's the PUCO's job to make sure Ohioans aren't taken advantage of by the public utilities. Do your job! All-electric homes owners are being taken advantage of.

RECEIVED-DOCKETING DIV

PUCO

What is the status of the PUCO report on the All-Electric issue?

When will the PUCO have a permanent solution recommendation and will it be prior to September 30?

When and where will the public hearings be on the All-Electric issue?

The PUCO must consider the broken promises and builder enticements First Energy made when making its decision on a permanent solution, and who will pay for the discount. First Energy should pay part or all of the discount!

Sincerely, Gary & Katherine Freeh
