PUCO

Docketing Case No.: 10-0176-EL-ATA

Notes: Regarding docket number 10-176. What is the status of the PUCO report on the all-electric issue? When will the PUCO have a permanent solution recommendation? I'd like to know when and where the public hearings will be on the all-electric issue.

PUCO must consider their broken promises and builder enticements that First Energy made when deciding on the permanent solution and who will pay for the discount. It's not out of your jurisdiction to make the ruling. Just consider the broken promises as evidence to make First Energy pay part or all of the discount.

Also where is the choice we have to select a different supplier for our electricity in order to secure a better rate, similar to the supplier list for gas service? When you have a monopoly you can just charge what you want. Is that fair?

Please restore the all-electric rate permanently.

Please docket the attached in the case number above.
