PUCO

Docketing Case No.: 10-0176-EL-ATA

Notes: Living in an all electric home, we would like an update as to what is happening with getting the 'all electric' rates reinstated permanently. 1) what is the current status of the PUCO report on all electric issue? 2) when and where will the public hearings be on the all electric issue? 3) when will the PUCO have a permanent solution?

When we purchased our home, we were told by the builder (who was told by First Energy) that our all electric rate was discounted and would continue throughout the time that we owned our homes. First Energy is now saying that isn't a true statement. This was an enticement to purchase and all electric home - cleaner - less expensive etc. I believe PUCO should back up what First Energy told people. Other customers don't need to subsidize the discount - First Energy can well afford to absorb the difference!

Please docket the attached in the case number above.
