Re: *In the Matter of the Application of Duke Energy Ohio, Inc. to True-Up and Set the Annually Adjusted Component of its Standard Service Offer, Case No. 10-518-EL-RDR*

Honorable Examiner Stenman:

The purpose of this letter is to clarify the record regarding the Staff comments filed on June 2, 2010 and the Stipulation filed on July 2, 2010. The Staff's comments recommended that Duke's rider PTC-RDR incorporate a credit to customers in the amount of \$658,759 as a true-up for environmental reagent costs incurred in 2009. However, the correct amount to be credited for environmental reagent costs is \$658,789, and this number is set forth in the parties' stipulation filed on July 2, 2010. The number in Staff's comments was an inadvertent typographical error and the correct credit of \$658,789 is contained in the Stipulation.

Respectfully submitted,
