Mr. Chairman Office of Chairman
R.U.C.O.

I was not at the special meeting that was held Friday, July 23, 2010. But I am one of the Seniors, who is very concerned, about higher cost in my electric. My Husband and I are no different than other Senior Citizens, we are on a Fixed Income.

Our Electric Bill is high any ways, but to take the discount away it will make even higher.

I urge you and the Public Utilities of Ohio to please to listen and to do what ever possible so we can keep the discount on our Electric.
