Subject: Docket Number ~~10-176-EL-ATA~~

To Whom It May Concern:

Last Tuesday I attended a forum concerning the rates for all electric homes.

When we built our first home in 1975, we installed all electric base board with individual thermostats. We were given a reduced rate because we had everything electric in our home.

When we moved in 1996, we were given an incentive to change our gas boiler to electric, which we did. Here again, we are total electric, but now First Energy wants to eliminate the reduced rate for all electric homes.

We did everything that was requested by Ohio Edison to our existing home in order to receive the reduced rate. We are retired and live on a fixed income. At present, we are on a budget plan for our monthly payments.

We want to go on record as a home owner requesting that the reduced electric rate for an all electric home continues in effect.

I have enclosed copies of our paper work signed in 1996.

Thank you.

Yours truly,

James W. Yangling, Owner
Mary J. Yangling
