My name is Peter Fantozzi, I am a 76 year old retiree living on a fixed income. In the past year it has been quite disturbing to have witnessed the drastic increase in my electric rates with the First Energy Corporation. Not only has my discount been removed, the per kilowatt rate has almost doubled.

Being a customer that has an all electric home has made this increase harder to adapt to, I am asking the Public Utilities commission to keep in mind that my wages/social security were not increased last year, due to a negative inflation rate. However, my electric rate was allowed to double. I am asking your commission to put Ohioans First when it comes to your policies and decision making w/ Corporations.

Respectfully,

 Pete A. ~~Fantozzi~~
