Docketing Case No.:
10-0176-EL-ATA

Notes:

customer said was at a meeting and people are unhappy with the all electric rates going away. She does understand they are back temp. Advised that I don't know what will happen with the discount. That new state and federal regulations make it very difficult. She is very unhappy that the chairman did not come to the meeting or call. Advised I can not answer what happened at that time. We do have a public affairs dept that usually handles those requests. That they are usually very precessional and courteous. Advised it could have been a scheduling problem as we were holding a lot of pubic hearings at that time. Apologized that no one contacted them to let them know could not come. Advised would note her concerns. Please docket the attached in the case number above.

The Public Utilities Commission of Ohio

Alan R. Schriber, Chairman

180 E Broad Street

Columbus, Ohio 43215

Dear Mr. Schriber,

We are writing to you to express how important it is that the PUCO consider keeping the all-electric discounted rate. We live in a condominium neighborhood that has 140 units that are all-electric. Many of our neighbors are on a fixed income. Eliminating the all-electric rate would cause hardships for some of them.

When these condos were built, energy management systems were installed to help residents try to be conservative energy users. Back then, keeping the usage rate low was important to maintain a discounted bill. We all learned to be conservative users. However, that discount system was done away with, and now residents are to be penalized again by having the all-electric rate removed.

Right now we have seven (7) units for sale and some of these have been on the market for well over a year. We also have two (2) units that have gone into foreclosure. Eventually, the banks will put those on the market. Buyers are concerned about how much their utilities will cost, thus making these units hard to sell and driving down the property values.

Please consider our request, which we are making not only for ourselves, but for our neighbors.

Respectively,

Marjorie Billman
