COMMENT DESCRIPTION:

Subject: Case No. 10-176-EL-ATA , First Energy All-Electric Rate

Dear PUCO Commissioners:

I am very concerned about my First Energy/Ohio Edison residential electricity rates. I strongly oppose a rate plan that increases my electricity costs to subsidize special electric rates.

In the 1990's I invested about \$5,000 into my home by converting from all-electric to a high efficiency natural gas furnace to save money on my heating costs. I cannot afford to subsidize discounted electric rates.

This is to certify that the images appearing are an accurate and complete reproduction of a case file document delivered in the regular course of business.

PUCO

I think First Energy, if they substantially made a promise(s) of discounted rates to some of their customers or in essence inherited similar promises by acquiring other electric companies, should share the cost of the end of special rates with their electric customers that received the discounted rates. Of course, that may mean sharing the cost of converting to another energy source.

Sincerely, Daniel Boyer
