Subject: All-Electric Homes 10-176-EL-ATA

To the PUCO:

You absolutely can not allow First Energy or any electric power company to rescind their forever all-Eclectic home. 1970's discount. They created through aggressive marketing home communities total dependence on electricity. It was done through builders financial incentives, verbal and written incentives and if the PUCO has an open mind with clear intent to make these homes dependent on cheap electricity.

In our case, my wife and I would not have bought an all eclectic home unless these discount incentives were in place. We bought our home in 1976.

In the last 10 years we have put into our home a new electric furnace, all new electric appliances getting ready for retirement.

I was forced to retire in 2003 do to health reasons. I have heart failure, pulmonary hypertension, stage 3 kidney disease, diabetes, gurd and sleep apnea. My wife and I are on social security. We received no raise in 2010 nor 2011 in Social Security income.

You can not possible allow First Energy to go back on their written, verbal, and intent and force people like us out of the homes. First Energy is responsible and should pay for these ongoing discounts.

America has problems. Look at the reason disclosures on home foreclosures, bank production lines to simply stamp foreclosures on home like a production line, Cuyahoga County corruption, Wall Street graft and corruption and huge bonuses to employees and THE OHIO PUCO is very slowly looking for a miracle to help First Energy[ the very people they have oversight on]

IF you do anything other the re-instate the original discount on generation and distribution of electricity, you will be added to the list of corruption and favoritism ti a monopoly First Energy. You have no choice but to support the original forever discount and that the discount stays with the home.

Do not wait for a new governor or a miracle just make the right decision for the home owners who have no recourse.

Sincerely,  
Jan and Terry Moore

Chardon Ohio 44024  
440-286-3631

P.S. Please keep in mind their marketing effort was even stronger when gas was put in front of are homes. They continued ti re-state the advantage of discounted All electric home discounts. The have broken a verbal contract for their own benefit. You can not sweep this situation under the rug
