COMPLAINT DESCRIPTION:

Current electric rates were increased 100% after all electric home rates were increased. Was told when we built home in 2000 that rates would stay low. All of the sudden Ohio Edison increases rates 100% without much of warning. Now we are depending on PUCO to defend us and eliminate the unfair increase that will come without your help. Feel we should also be reimbursed the amount of the increase from this past winter before rates were changed back temporarily to original rates. A 100% increase is very unfair and at a time when budgets are tight impossible for any family.
