COMMENT DESCRIPTION:

This comment is regards to case # 10-176-EL-ATA (All Eletric home rate discount).

When I first heard about this program I was amazed and more than a little upset.... If this discount does or did not affect my electric rates in any please by all means, let the discounts continue. But I've been around long enough to know, nothing in life is free or in this case heavily discounted without some strings attached. My guess is that myself and millions of other Ohio electric users who didn't qualify for this discount have been paying their "discount". So like all well intentioned programs, those that have are REQUIRED to pay for others who feel privaliged. Please put an end to this program and get back to the job of making sure that all of our utilities operate responsibly.

I actually feel the rest of us who paid the discount for those who's home were all electric, deserve to be reimbursed by those that received this discount. Let's work on that on, forget the discount, I want my money back... I was never asked if I wished to contribute to the "I have an all electric house and deserve a discount"
