Dear Mr. Schreiber:

RE: Case # 10-0176-EL-ATA

My name is Robert Zavesky, retired Fire Chief.. I attended the hearing in Strongsville, OH on October 27. I am the owner builder of an all electric home built in 1999. I was approached at the beginning by Mr. Bill Schumacher, a rep from the electric company to build an all electric home because I would have an electric discount for it. At that time there was propane immediately available. And I might add that there was a possibility that gas could be available. I chose electric for the discount and to go green installing a geothermal furnace.

By First Enery promoting all electric homes, did they in effect stop gas lines from ever coming down my street and several others since 1999? We won't be able to sell our homes and we won't be able to pay the electric bills thanks to the electric company breaking their promise.

Since I am retired living on a fixed income, **I strongly urge** you to hold the electric company to their promise to us and other all electric home owners

Sincerely,

Robert D. Zavesky
Robert D. Zavesky.
