Re: Case # 10-176-EL-ATA

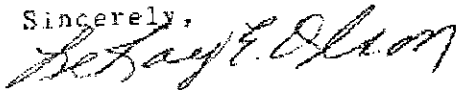

Gentlemen:

I am one of what probably is thousands of citizens writing to oppose the PUCO plan to discontinue the discounts on all-electric homes.

One of the reasons we purchased our home in the first place was for the savings that existed. We are senior citizens trying to just "get by" -- in Obama's economy plans there is not much to add to our already meager income -- even our Social Security raises will be denied -- now for the second year. So you can certainly understand how much this discount means to us.

I would plead with you to keep these in existence.

Sincerely,

LeRoy E. Olson

P.S. And also, please be advised that in our location we do not have the luxury of changing to gas for our heating -- there are no gas lines. And if there were, we would be hesitant to change as the safety of gas is becoming less safe!
