Docketing Case No: 10-0176-EL-ATA

Notes: 2 points to make I am an all electric homeowner. When we built this home, we were told if we went all electric we would get a discounted rate. Toledo Edison should uphold that promise. Larger users should get a lessor rate just as businesses do. We have always tried to conserve electricity. Secondly, since my county passed electric aggregation and the generation will be through FES, and I am already getting my generation through FES because I signed up for it on my own last year, is it in my interest to go with the county's deal or stay with it on my own? Is it a better rate? I haven't been able to find any information. If I want to cancel on my own I have to let them know by Dec. 3. Please answer.

Please docket the attached in the case number above.
