Re: Ohio Edison Company
A First Energy Company
Optional Heating Residential Service
Case Number 10 - 176 - EL - ATA

Office of Chairman
P.U.C.O.

Dear Mr. Schriber,

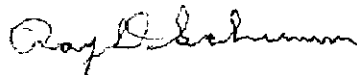

First, I feel that I must complement Congresswoman Kaptur for her eloquent presentation supporting "all electric homeowners". She voiced our concerns regarding the economic effect this will have on senior citizens, on fixed incomes as well as a reduction in our property values. The Congresswoman clearly understands that a promise is a contract. Her words were echoed by the many consumers who spoke at the Public Hearing held in Sandusky on Monday, October 25, 2010.

It was a pleasure for us to convert a dusty coal-fired furnace to a clean all electric system in 1995. I thank Ohio Edison for offering the service. Our home has been very comfortable for the past fifteen years.

Ohio Edison approved our home as energy efficient and offered us an agreement, (copy enclosed), for optional heating. This agreement has no maturity date. The agreement is named "Residential Service Optional Rate", signed 1 - 29 - 95, and is authorized by Ohio Edison representative Paul R. Angersbach, (copy enclosed).

I have maintained my home, honoring the terms of the agreement and will continue to do so. I expect Ohio Edison, A First Energy Company to do the same.

Respectfully submitted,

Ray D. Schuman
