The discounts need to be returned to permanent status. As for kWh last year's rate was 4.0, this years bill due and payable October 22, 2010, 6.58 cents per kWh and unlike the Illuminating Company users we receive no discount for the "Residential Generation Credit" until we hit 1,250 kWh, they have no minimum usage requirement at all.

Please docket the attached in the case number above.
