COMMENT DESCRIPTION:

File comment in Case# 10-176

I remain very concerned about the OCC and PUCO's level of support for the many all electric families in Ohio who were so severely impacted last winter by the huge cost increases for electricity. Neither the OCC nor the PUCO took any time to truly understand the actual useage rates for all electric homes before allowing The Illuminating Company to nearly triple our rates by eliminating the all electric and load management discounts. This does not even address the huge investment i have in my time of day load management system that is now useless. I plan to attend the next hearing at Lakeland Community College in order to provide details on my situation and i am hopeful that the PUCO will reverse the previous decision and reinstate both the all electric home rates and the load management discounts.

PUCO
