Chagrin Falls, OH 44023

Docketing Case No.: 10-176-EL-ATA

Notes:

Case # 10-176 Please make the All-Electric rates promised to AE home owners permanent. Our homes were built with permanent discounted rates guaranteed by representatives of our power company and the builders who believed these representatives. Because we use more electric "product," we are entitled to quantity discounts that were promised. Many of us are retired & cannot afford the continuous increases in rates, especially when we do not have gas available on our street & can't afford the exorbitant cost to get a gas line installed. Switching to gas is not an acceptable answer when we would have to put in a chimney (our home does not have one), install a gas heating system (we have electric boiler & installed a heat pump for back-up & air conditioning), in addition to paying thousands of dollars to bring a gas line to our street. Please make the power company honor their contract & provide All-Electric customers with the discounted rates that we were told would be permanent. Thank you.

Please docket the attached in the case number above.
