COMPLAINT DESCRIPTION:

I have an all electric home and I think what Ohio Edison (First Energy) has done with our rates is unfair, unjust and not keeping with their promise of 35 years ago. They have a monopoly and we as consumers have no alternative, something should be done to control them.

What needs to be done is to have these Permanent Solution Requirements put in place for all electric home owners:

1) A permanent, all-electric rate differential/discount for nine months of the year for generation and distribution. The rate differential should be equivalent to the pre-2007 "declining rate" structure. During

RECEIVED-COMPLAINING CNY

This is to certify that the images appearing are an accurate and complete reproduction of a case file document delivered in the regular course of business. Technician *Shm* Date Processed NOV 05 2010

the summer months of June, July, and August, the all-electric customer would pay the standard residential rate which will help conserve energy and put them on the same terms with the gas/electric customer who also depends on electricity to cool their homes.

2) The all-electric discount must be attached to the HOME and not the OWNER. This will allow the homeowner to be able to sell their home in the future or rent their home without losing the discount. The discount would only be lost once the house is destroyed. If this is not done, the all-electric home becomes un-sellable and the loss of property value to homeowners will be significant. With 106,000 all-electric homes in Ohio, denying the discount to future owners will create a brand new and highly undesirable real estate crisis that Ohio cannot afford to let happen to its economy.

3) The all-electric discount must be given to EVERY all-electric HOME. Currently, any home sold after Jan 1, 2007 lost the discount for the new owner. Also, any home experiencing an account name change at First Energy after Jan 1, 2007 due to divorce, renters, etc. has lost the discount. Furthermore, any homes after Jan 1, 2007 that installed the necessary all-electric equipment to qualify for the all-electric discount have also been excluded. All of these houses which are currently excluded from the temporary reinstatement must be included in the permanent solution.

4) The discounted rates made to load management and water heating customers must also be honored.

5) First Energy MUST NOT raise the rates of other customers to pay for the all-electric, load management, and water heating discounts. If losses are to be incurred, First Energy should take the losses from stockholder profits since it was their breach of promise/poor business planning that caused the problem.

6) Overcharges made by First Energy between May 2009 and March 2010 must be refunded in full.

Please file my complaint into the docket for Case No. 10-176-EL-ATA.

I will be attending the upcoming PUCO hearing on this issue in N. Ridgeville.

Thank you,

John L Davis
