Notes: I am writing to oppose First Energy's request to allow the "phasing in" of the all electric discount. This discount needs to be reinstated immediately.

Please file my comments under Case # 10-176. I am once again writing to ask the the PUCO force First Energy to permanently reinstate the all electric discount that was promised by First Energy. My home is base board all

electric heat and when the discount was removed my heating bills sky rocketed to \$800 plus a month. I NEVER would have considered buying this home 18 years ago if I thought I would have to pay such outrageous heating bills. Nor will another buyer consider purchasing my home if the discount is not permanent. Why would anyone buy an all electric home when a gas heated home have much lower heating bills? They wouldn't! Not only does the elimination of the discount put my family and I in financial dire straits but it also greatly reduces the value of my home. Being base board electric heat with no gas line on my street makes converting to gas financially unfeasible. I am asking that you hold First Energy to it's original promise of keeping the all electric discount. Simply because it no longer benefits First Energy to offer the discount is no reason to leave people like me with a house they can't afford to heat nor can they afford to sell at a loss.
