Docketing Case No.:10-176-EL-ATA

Re: Case 10-176 - I feel it is unfair that the date for a decision on the all electric discounts has been pushed back until late January of 2011. Perhaps if the PUCO had not taken 5 months to respond to the OCC's request to inquire about First Energy's practices this could have been resolved in November 2010 like it was supposed to be. It's odd that the OCC had to wait for 5 months for a decision while First Energy was granted a continuance in less than a day's time.

This is putting people's lives on hold regarding selling a home. Also, it just creates a great deal of anxiety when a homeowner doesn't know if their home value will plummet with no hope of recovery, and they'll be stuck with extremely high utility bills forever! This is nothing any of us signed up for when we purchased these homes.

Please docket the attached in the case number above.
