Re: Energy Case 10-276-EL-AEA

Dear Commissioners:

When we purchased our home in Jan 2003 on Ocala Dr. we were hesitant. It was an "all electric" home, which was a turnoff for us. I thought that bill will be outrageous & we will not be able to afford it. The former owner said they got an "all Electric" discount from the Electric Co. (They lived here 17 years with the discount & the owners before them had it too). "This discount has been forever & is transferable". They made it sound like it is "permanent" & "carved in stone". They showed us their Electric Bills which were affordable. We then bought the house. We got use to the all electric home.

A couple years ago our heat pump died; We had to get a new furnace, heat pump, etc. Kept with Electric. Thought are winter bills will be better with the new efficient system. Same time they stopped the discount, we got our 1st winter bill. Thought my heart stopped. Without the discount our Electric bill is like many others, is not affordable. The Electric Co. should not ~~[illegible]~~ be able to take the discount away as it creates a great hardship on so many people. In these economic times, people need all the help they can get - not have to debate whether to turn a light on or stay warm.

Sincerely,

Your consideration to make these discounts permanent would greatly be appreciated. Thank

Terry P. King
